ST on fire!

Tuesday, May 12th, a night that must not happen. A fire started at ST, a catastrophe that we have been lucky to avoid so far.

Fire is, and will be a catastrophe to those affected by it. Everyone involved in the fire on May 12th were unharmed, but considering how quickly the fire had spread, and the time of day, it is obvious that it could have ended a lot worse! The fire has, of course, impacted ST the most, especially its occupants, but the residents of ST-odd in particular, who will have to wait a lot longer before they will be able to move back. Meanwhile, portable cabins have been made available to some, while the rest are living temporarily around Lyngby. A fire such as the one we've encountered, tends

to raise some questions, like should we do fire rehearsal once a year? What is the correct procedure to follow in case of fire? What can I do to protect myself? Are the fire alarms functioning as they should?

We will be bringing more news on the fire on the last pages of this issue.

Bike cleanup review
See page 3

Residents' council news

- ◆ Henrik A-32 is now a key bearer
- ◆ The canoe club has been allocated money for purchase of new kayaks and locks
- ◆ The Residents' council is looking into

whether or not the internet group can sanction individuals by withdrawing their internet or TV-package, given that they are behind on payments or are receiving complaints.

- ◆ Whether KAB can charge payments to the kitchen coffers through rent, is also being

looked into.

- ◆ whether 8 TV channels can be converted to digital, and whether a box is needed for those unable to receive digital TV.

Politicians in charge of Dinnerclub

Whit Monday, May 25th, Dinnerclub had been arranged at JK-odd by the politicians Jeppe Bruus (Socialdemokraterne) and Jakob Engell-Schmidt (Venstre). The menu consisted of the famous dish; pasta meat sauce, which was quite successfully prepared by the two politicians. About 13 residents, most from JK, and a few from other halls, had found their way to the free event.

There was plenty of time, before and during the event, to discuss politics and working as a politician in general where people could test the prejudice associated with being a full time politician on a national level.

Jeppe Bruus is the representative for research and higher education, while Jakob Engell-Schmidt is the representative for entrepreneurs and innovation, and it was these subjects that conversation started at.

Naturally, one of the first things that was discussed was the fremdrift reform, which

included a lot of criticism, a lot of it coming from DTU students who thinks that the reform isn't intended for a university like DTU. There was, however, agreement about elements having been added to the reform, that are positive, e.g. that you can work full time in between your undergraduate and your master's degree and continue on the same terms as students who have gone directly from their undergrad to their master's degree.

Later on, another conversation sparked about what can be done to encourage more people to start their own business, and how much more it should be taught at the universities to make people more aware of how easy it can be to become an entrepreneur.

More political disagreements between the two politicians were to be had on the subject of assisted suicide and tax reductions vs investment in the public sector, and both

politicians had the opportunity to discuss with each other and the residents.

All in all, it had been a very successful evening to those who had turned up, who had also become wiser about politics and the upcoming election, while having enjoyed a nice dinner.

Jakob, K-55

Bike cleanup

Sunday, May 10th, was the day of the yearly clean-up. In case someone has any doubts, this was very much needed. It had actually been two years since the last clean-up, which in and of itself is a big concern.

At 10am, Sunday morning, 10 residents had gathered outside Lars Kaj's office. Together with the blue men, John, the first thing on the agenda was to gather the bikes without zip ties, and then gather garbage. Compared to last time, 20 residents is actually a great turnout—fantastic!

A total of 200 bikes were collected, which would be one for every three residents. The many removed bikes really opened up some areas of the dorm, though many were still packed with bikes. Eight residents started, halfway through, to collect the garbage, which in turn resulting in eight full garbage bags.

On behalf of the residents' council, I'd like to give a big thank you to the people who helped!

Bringing back the antique

Come join us Saturday, May 30th. We will be opening the doors at 9pm. There will be free glad på fad until 10pm.

Come dressed like a mummy, or perhaps

Caesar, or a pharaoh? The best costume will win a bottle of alcohol. The same price will be given to a random person who has tagged their friends on Facebook!

The Kældercafé's renovation plan

The Kældercafé wants to renovate. This is why a request to having money allocated by the residents' council, has been forwarded to the upcoming meeting. While the details can be found in the attachments for the meeting, we would still like to present you our vision and the requested amount. This is since we're very aware that it's a substantial amount.

Budget 1: Strictly necessary!
Total: DKK 96,799.25
Thereof NYK: DKK 61,435.00
Network account: DKK 35,364.25

Budget 2: Now we can get a good bar!
Total: DKK 103,914.25
Thereof NYK: DKK 68,550.00
Network account: DKK 35,364.25

Budget 3: Now we can get a really cool bar!
Total: DKK 110,952.25
Thereof NYK: DKK 75,588.00
Network account: DKK 35,364.25

As you can see from the proposed budgets, we were making use of the DKK 40.000 that the residents' council has available every year from the network account. This is why we've put everything that is walls, ceilings and paint on this account instead of the NYK account.

That being said, we do know that were asking for a lot of money from NYK. The reason that it's so expensive to renovate is because it hasn't been done in a long time. Last time the bar was renovated was in 2004. From that point on, it has been patchwork here and there. Of the money were asking for from NYK in budget 1, 49% is for a new washing machine and a surveillance system. Expensive but more than necessary! Our current washing machine can't use soap, and a surveillance system is necessary, for both costumers as well as the bartenders.

Now that that is out of the way, we're ready to look at the renovation and the visions we have.

More light and warmth

Some of what has been the most requested from the residents we've asked has been more light. They would also like to see warm colours and a lively decor. We can't escape the fact that the bar is placed in a basement, and that the budget is limited.

We do however, want to focus on the colours. The new bar will have different and stronger colours than the mostly grey colours that we currently have. We want more lighting, specifically in the corridor, where we hope to create a more intimate setting.

3 rooms with 3 moods

In spite of the Kældercafé's modest size, we would still like to have different moods in the three rooms. We want a party atmosphere in the bar room, including creative disco lighting and special flooring that has the function of marking the dance area while not being limited by a railing or something similar. The walls should have silhouettes and life!

The pool room has been the favourite to many so far. This is why we don't want to revolutionise the room, while still making some changes. On the wall facing the toilets, we want to put a bench, while covering the pipes in the corner. The walls are still covered with great paintings, but since the walls need painting, it's unclear as to whether we can preserve them. If they are removed, we will try and paint something in the same style.

We want to create a calm mood in the corridor. We're thinking of having a drinking game area, while making the small area on the other side of the bar more cosy. We're thinking of having a soft sofa and a low table and some puff's or something like it that can be places around the table.

We want to replace the tables in this room with booths. These should be decorated with smaller drinking games like Ludo, There should also be hanging light bulbs to

give a rustic ambience. The music should also be adjusted so that it is lower while still being in the background, making it easier to sit and have a conversation.

By having three different rooms, we're hoping to make a bar that is open to all, including those that aren't into hardcore partying every weekend, but just wants a nice place to gather and have a beer or a drink to finish off a week.

More functionality, hygiene, and safety!

The last focus lies on the bar itself. We want to improve the bar for costumers as well as for the bartenders. As mentioned, we are in need of a new surveillance system for everyone's safety. We want to mount small lights on the staircase, making it easier not to fall when it's dark outside.

We want new counter tops, not only those facing the costumers but also those used by the bartenders. By doing this, we will no longer have a hole on the costumers' side and removing the overlapping tops facing the bartenders. This will increase the hygiene in the bar. For this, a new washing machine plays a huge role. We also want more refrigerators not only in the bar but also in the storage. This would make it possible to expand our selection by including beverages like specialty beers or other kinds of alcohol.

We're hoping that you will welcome our ideas. The improvements will never become a reality without the money from the residents' council.

Free vacation in nature

The savings have been spend on protein powder, you received no work hours on your job, but what about the house in the country with the elderly? But then you get the idea, as many others, vacation at Nybrodyll!

Semi - public right

Your summer vacation does not need to be boring. We do not have *Allemansretten* in Denmark, like they do in Sweden, which permits setting up a tent wherever you want. But the Skov- and Naturstyrelsen is making a big effort to construct bonfire sites and shelters that you can use to spend the night for free. Luckily for us, many of these areas are in close proximity to the dormitory and can be reached by kayak, bike, or on foot.

At Furesøen, you'll find, other than Frederiksdal fribad, Kolle Kolle. Kolle Kolle campsite is one of the places where shelters have been constructed, here you can settle down for the night (These shelters may be

reserved, it is therefor recommended that you check beforehand).

Get planning

Impulsive trips are a good alternative to the ones that are planned, but if you'd like to plan a longer trip here is some info and good ideas:

Friluftsrådet has made a book called: *Overnatning I det fri*. It costs DKK 139.- and can be purchased online. It shows 1000 of these places, e.g. around Mølleåen.

You can follow up on news and information regarding activities on the Facebook page "Overnatning I det fri".

Mølleåen, just outside our door, is about 36 km in length, and starts at Bastrup lake,

south of Lyngby. From here it runs through three larger lakes: Farum lake, Lyngby lake, and ends at Strandmøllen in Øresund.

There are plenty of guides and brochures that tell you how you can experience Mølleåen on land and on water.

Denmark's Naturfredningsforening has made a map of the route, that shows the trip on foot, bike, and in canoe/kayak:

http://www.fredninger.dk/dnressources/Turkort_Mølleå_lyngby.pdf

Mølleådalen 3 - Lyngby til Øresund is a brochure made by Copenhagen county. It describes a 11km route in canoe that takes you through some beautiful nature, and eight historical mill sites, described in the brochure.

Denmark's Naturfredningsforening, Skov- and Naturstyrelsen and DMI are great places for planning your trip

I-J

Impotence: This means that you are unable to have intercourse. Even though women in a few rare cases can be impotent—unable to allow the penis to enter the vagina (see genitalia) — because of cramps in the muscles of the vaginal entrance, it's an expression used primarily towards men. Most men have tried being impotent, and most are afraid of it because of the notion that a **real** man is always potent—which is nonsense.

Infantilism: Being *childlike*. It can be physical with chubby fingers, a childlike form, and missing hair, even after puberty

Infibulation: A operation, that prevents intercourse.

Initiative/sexual: In our society, we've an accepted social norm, that it's the man who takes the initiative; it's the man who calls and invites over. Most men would be paralyzed if the girl took the initiative. If we look at the animal kingdom, then we see that this activity is more common among both sexes. Both parties are sexually active, sexually aggressive.

Jealousy: Being unable to share the one you love with others. Children's jealousy when their mom is talking to others can be especially tiresome.

Virgin: Is what we call a woman who has not had a penis inside her vagina.

Virgin birth: when conception occurs without a sperm cell, self fertilization. This happens in nature, but can also be recreated in the laboratory. It is even possible for the fertilization of a rabbit's egg by titillating the unfertilized egg. It will thereby get daughters, who only has the genes of the mother, which is interesting when discussing heritance and environment.

Minutes of residents' council meeting

Residents' council meeting
May 5th 2015

Agenda:

1. Moderator and language for the meeting
 Thomas, Danish.
 2. Voting members
 14
 3. Approval of minutes from last residents' meeting
 Approved
 4. Approval of agenda
 Approved
 5. Economy
 Network account: DKK 232.647,67
 NYK account: DKK 171.204,11
 6. Announcements
 - Thomas: The financial report for the active party;
 ended up costing DKK 10.240.-
 7. Review of last board meeting or agenda.
 - Jakob and Rasmus: There has been talked about the budget for next year, there aren't any major changes compared to last year.
- Price changes on TV-packages. It will be on the website when it takes effect. New prices:
 Standard package: DKK 106
 Expanded package: DKK 294
- KAB has had a big firm take a look at insurance related things in the dorm. Proposals have been made, of which the interesting ones will be discussed at the meeting
 It should be said that there has been bigger insurance related problems in the dorm.
- Kitchen coffers have also been looked into since many aren't paying the amounts required. Two proposals have been made:
 Limit access to internet/network if they are 3-6 months behind on payments.
 KAB is offering to let the payments be included as rent.
- KAB forgot to charge a larger amount from the dorm administration, they had changed an agreement that should be paid for, but they didn't charge it retroactively

8. Inward Correspondence

(A) Purchase of new kayaks (O)(A)
 -V. Michael Ford Folkmann, K-43

The two red kayaks are damaged, and sent reparation, but are estimated to break no matter what. One suggestion is to restore and sell them, after which new and better kayaks can be bought. DKK 11.000 is requested to purchase other kayaks.
 The problem is that they (Malikkers), aren't very sturdy and would need repairs at the end of the season. There is interest for new kayaks.

Vote on purchase of new kayaks
 For:11, Abstained: 2, Against: 1

The kayak club will be permitted to purchase new kayaks.

B) Nybrofestival financial review (A)
 -V. Jakob Jensen, S-06

As far as I can see, there has not yet been delivered a final accounting for Nybrofestival. Can this really be true?
 The Kældercafé has delivered all that you should to deliver to Mikkel, but still need to get the money. It has been nine months, you should be able to collect the money since it has been so long.
 Thomas will try to contact him.

The KælderCafé Q1 financial status (O)
 -V. Henrik Pedersen, A-32
 Presentation of the financial status of The KælderCafé.

Problems resulting from Metro having closed, so things are more expensive. However, during the next quarter it is assumed to be in a surplus. You've got the AB catering to deliver the goods, so you will save some money.

C) Increased sanctions available for violation of the residents regulations (A)(D)
 -V. Rasmus og Jakob

The Complaints Board and the Board have requested for possibilities to sanction breaches of occupant regulations. Together, we explored the possibilities of KAB and in our internal rules and come up with a concrete proposal:
 An addendum to the contract for the Internet connection, which must be: "The Network Group reserves the right to terminate the agreement at the end of this month at the request of the Dormitory's Board."

Moreover, an addition to the residents of Procedure that "the Dormitory Board can sanction / involve the use of the Dormitory network and internet and TV signal".

The wording needs to be discussed and a vote on whether the proposal should proceed to the legal assessment and afterwards, a vote at a residents' council meeting.

A time for contacting the Complaints Board has not been decided, but it will be decided later.

It is a good idea, because there are people who do not pay to the kitchen coffer and there are actually people who are in a very deficit. The plan is that this will also apply to other offenses.

Vote on proceeding and to come back with something concrete:

For: 10, Abstained: 3, Against: 1

The board will move forward with the idea and will later get new info.

D) Payment to the kitchen coffer through rent (A)(D)
 -V. Rasmus and Jakob

KAB has offered to collect the monthly payments to the kitchen boxes through the rent. The amount may vary for each hall.

These will be sent to NYKs treasurer and distributed to the kitchen coffer responsible.

This will ensure that the money will be paid each month and no residents move out with large arrears. It will probably lead to the kitchen coffer responsible having to make more transfers than previously. The need for this is discussed and a vote is taken as to whether it should be implemented.

Benjamin: In stead of collecting receipts In NETTO, something like nemlig.com can be used and it has had success in my kitchen. If you can create a standard shopping list and have a list of what you want, it would save the treasurer a lot of work, this is just an idea to make it easier on the kitchens.

The money is sent to NYKs account so that each hall gets all the money. Kitchen coffer responsible does not have to go out and collect the money, but instead it will be charged through NYK. If KAB needs money for it, it would not be much since the same applies to the 30kr per month for Net Group.

Even though people aren't using the kitchen, they must still pay to the kitchen coffer, as it is mandatory by law.

There must of course be made some rules about whether, and how often, you can change the amount to be paid to the kitchen coffer.

Vote on proceeding with the idea:

For: 12 Blank: 2 Against: 0

The Board will proceed with the project and you will be informed when a final solution has been found.

E) Covering the need for access control of the outside doors (A)(D)

-V. Rasmus og Jakob

The Dormitory's last insurance check has resulted in a negative note for lack of access to the dormitory's exterior doors (e.g. a lock, magnet, intercom, static code, or a system like the washing card). The Board wishes to clarify the dorm's position on this. A vote on continuing with the question and finding concrete solutions is taken

Red annotations for the lack of access control.

Tiresome having to unlock every door when going through the dorm, there are no major problems with burglary.

Some parts of the dormitory are more exposed than others, but it is not a big problem and it will be more difficult.

Johannes: Have had need of a locksmith, he said that the doors hung a little and they could, in principle, be opened.

If people are having problems with their doors, then head down to Lars Kaj during his opening hours.

Should the board proceed with access control:

For: 0 Blank: 4 Against: 10

The board will not proceed with access control.

F) Covering the need for video surveillance and increased lighting of the parking lots (A)(D)

-V. Rasmus og Jakob

The dormitory's last insurance check has resulted in a report about lighting and video surveillance of outdoor areas (paths and parking spaces). The Board wishes to know the residents' position on this. A vote on whether the Board should proceed with

the issue and find concrete solutions to video surveillance and / or setup spot w / motion sensors and / or increased lighting is taken.

Spotlight on the parking lot JK: there has been vandalism and theft of motorcycles, it would be a good idea to put it on the exposed areas.

If you want to tinker with a car, you take a hood on and cover yourself. You can never avoid burglary, but preventive measures are the best you can do, so that the thieves do not choose the places that are brightly lit up and monitored.

Vote on splitting it into two separate points;

For: 10 Blank: 4 Against: 0

The point is split:

Increased lighting if necessary. spots on car parks, trails and bike sheds

For: 4 Abstained: 8 Against: 2

The board will continue with this.

Increased surveillance of the parking lots, bike sheds and so on.

For: 3 Abstained: 6 Against: 5

Video surveillance has been outvoted

G) Replacing the key bearer (O)

-V. Troels Just Christoffersen, O-7

I don't want to be key bearer any longer. A new person will need to take over the job. Henrik A-32 is the new key bearer

H) Purchase of locks (O)(A)

-V. Michael Ford Folkmann, K-43

Some canoes have been left unlocked, DKK 950 for locks and wires

For: 13 Blank: 1 Against: 0

The Kayak club will be provided with the money

I) Digitizing of TV-channels (D)

-V. Jakob

There has been put aside money in the Dormitory's budget for 2015/16 to Upgrade the TV equipment. I suggest that we use some of it to upgrade a number of our channels to digital channels. Lars Kaj is estimating the price but believes that it will be about DKK 3.000 per. channel (not NYK money). We are therefore only upgrading the number of channels necessary. I suggest to upgrade: TV3, TV3 +, TV2 Zulu, Channel 4, Channel 5 and 6'eren.

Is there need to upgrade any other?

(Perhaps Discovery or National Geographic) It has been agreed upon more than two years ago to digitize channels, but it costs a lot, therefore, there are suggestions for the most watched channels. Many will get extra expense so it still makes sense to keep all the basic channels in analogue, but if there is no room for it, analogue channels will be excluded. One can possibly buy a converter for TVs that can't receive digital signals. Discovery and National Geographic are desired by multiple kitchens. There will be a link to the website where you can possibly buy a box that converts analogue signal to digital.

9. New members and alternates.

10. Other

- Camilla H-54: problems with wall colour in the kitchens of GH-even, the colour is salmon coloured and some boys have problems with it and want it to be white. Anyone can ask the residents' council for money to paint, but it must be done in general rather than just for the individual kitchen.

- Compressor in the bike shop, the compressor must be handed to Lars Kaj before something new can happen.

- Rasmus: Contract Expiration all are thrown out when their contract expires, as confirmed by KAB. There have been one case, but the person is in court.

- Jacob Nybrofestival if someone wants to be in charge of it, I want to help but won't bother doing it alone so if there aren't some who join, there will be no Nybrofestival. Ea wants to be in charge of Nybrofestival this time.

- Lars Kaj: Bike Cleanup on Sunday, there has been confusion about the cleanup; it is the residents are in charge of clearing the bikes up. Remember that there will be free drinks and delicious food.

Next meeting

The next meeting will take place Wednesday, June 3rd.

Any cancellations must be submitted at www.nybro.dk > Residents' Council > Cancel at least one day before the meeting

Notice of residents' council meeting

Agenda for residents council meeting, June 3rd 2015

1. Moderator and language for the meeting
2. Count voting members
3. Approval of minutes from last resident' council meeting
4. Approval of agenda
5. Economy
6. Announcements
7. Board meeting
8. Inward correspondence

A) Outdoor Wi-Fi (D)(O)

-V. Mikkel Wahlgreen, J-21

The net group is requesting for four outdoor WiFi antennas to be installed here for end of July at gable of AB, EF and JK for coverage of the

apartments. We've tested the system at the heating central with great success. The solution will cost DKK 65.000.- or 60.000.- depending on which one we choose. (we're therefore requesting access to the NET account).

See the attached specifications.

A) The Kældercafé is requesting money for renovations (A)

-V. Jakob Jensen, S-06(the KælderCafé)

The Kældercafé is requestion money for renovations. The rooms and most of the inventory is worn out after their years of use. We've made three budgets that we want a vote on.

Budget 1: Strictly necessary!

Total: DKK 96,799.25

Thereof NYK: DKK 61,435.00

Network account: DKK 35,364.25

Budget 2: Now we can get a good bar!

Total: DKK 103,914.25

Thereof NYK: DKK 68,550.00

Network account: DKK 35,364.25

Budget 3: Now we can get a really cool bar!

Total: DKK 110,952.25

Thereof NYK: DKK 75,588.00

Network account: DKK 35,364.25

We're aware that it's a lot of money, which is why we hope that you take the time to read the atatchments

9. New members and alternates
10. Other
11. Next meeting

Any cancellations must be submitted at www.nybro.dk > Residents' Council > Cancel at least one day before the

Proposal for the new Kældercafé design

A wobbly course

The spring season is about halfway through, and it's about time to make status for the first fourth part of the season.

A look on the table in the bottom reveals that both teams have fought hard. It should still be noted that it isn't a lot that is separating the dorm's team from the competition, especially not on the men's side.

If we start with the women, their team has been hit with a lot of injuries, which gives reason to the results. It has been hard to get enough players, and when you have one or no substitutes and someone gets an injury, the rest of the match becomes that much tougher. During the season's second match was when it went wrong, when a player tore the ligament in her knee. This is one of the worst possible injuries that results being unable to play for more than half a year. As if that wasn't enough, another incident happened in the next match. At the cup match against Egmont, it was the goalie Malea, who was hit by the ball in the head with such a force that she blacked out and had to be picked up by an ambulance. She is on top again, but not without a broken nose and a bad concussion. Did anyone say that woman's football needed intensity? Disproven!

All in all, a bad start to the season for the women's team, who are hoping to be catching up.

If we look at the men, the image is somewhat mixed. A look back at the table below shows that the men are at the bottom, but still very close to the competition. The team has played one game less than the competition, and a victory would be enough to bring the team back to 3rd place.

The results have varied greatly during the season. In a training match before the season, a victory of 2-1 was had against Morbærhaven, who are currently occupying 1st place. The same luck was not to be had during the first match of the cup, where a relative equal match resulted in a loss of 1-0.

When it comes to the score, the team hasn't looked back since. In the two following matches they ended up resulting in a total score of 9-10.

The first match was against Regensen and, as described in the last issue, it was an intense match. We did however end it with a victory of 5-4. The luck changed as next match came the week after, which was probably nothing but our own fault. Being the visiting team against Kagså we managed, after just 20 minutes, to be behind with a score of 4-0. a very bad start to the match, but a start that had its reason. The field we were playing on was far away and very inaccessible. Multiple of our players

were therefor late to the game, which is why we only had 9 players during the first 20 minutes. And it cost us dearly.

When the rest of the team had joined the match, the game changed. We started gaining back the control and had a lot of opportunities, but the precision was lacking. Kagså was unfortunately able to score another goal just before halftime, expanding their lead to 5-0. After halftime, the Nybro team was ready for a comeback, and was able to score four goals, one after another. It was to no help, that Kagså was able to score their last goal, ending the match at 6-4.

The month's last match was a cup match against POP. Here, we ended up losing 2-1, a match that was very close, and where Nybro clearly was the better team. A goal from the corner and scoring a goal on ourselves was enough for POP, who could be said to be sharper.

NETTO sponsored the fire-dinner

This is the story about Friday, May 15th, when NETTO's head office got a call and were asked if they would sponsor a dinner. A dinner which went to the residents, whose building was in flames Tuesday night. The answer was "Yes, we would like that."

NETTO showed empathy

"I have never seen NETTO sponsor anything like this before! But they know their costumers, and the worst that could happen was a no" -Emma, organizer of the communal eating Friday night. The list of arguments as to why they should sponsor the dinner had already been written, but was not at all necessary when NETTO Engelsborgvej had to be persuaded and then when NETTO's head office had to be persuaded as well "We know that the residents of Nybrogård dormitory are a major costumer in our store" was the response from the upper management of the store

The night was crisis counselling

Many of the residents are still sleeping poorly, are frightened by loud noises and nauseous at the smell of barbecue. The stories of enthusiastic parents who would serve delicious barbecue to their evacuated children were plentiful. It was fortunately in humorous tone that everyone could share the revulsion felt for barbecues and people's irrational reaction and impractical choice of shoes and clothes on a Tuesday night as the smoke-filled building and fire alarms rang.

The majority of residents are studying at DTU and have exams hanging over their heads. "I think I am not speaking for just myself when I say that I have been very forgetful since the accident. Many electronic devices are broken due to soot damage and i thought that having to transfer money would be difficult to manage for most of those involved. I stood in the dilemma of having to pay for 30 people, knowing that i would not be getting the money back, or having to find another solution. All I knew was that the need to gather ourselves and

be able to share our experiences was huge and people are very stressed on all fronts".

What was the subject of that night? It was about Four days after the accident that dinner was served, but there was no doubt where the focus was. At 3pm, when we were on our way to NETTO, the subject of conversation was fire. The shared dinner was therefore crisis counselling for many of us that night. "This evening actually started because of a huge need of my own to see the others. In the many hours we waited for the fire to be extinguished, we were all together. When the fire was extinguished and we found out that the building was totally uninhabitable, we all scattered across Zealand".

The Menu

One thing was certain we would not be having a barbecue! It wasn't steaks or a three course meal that was prepared when the request to NETTO went through. The menu consisted of chicken curry with rice and shake and bake cake for dessert. "I had to find something that could be made from very simple ingredients, especially the cake. As I explained to Bent from NETTO's head-quarters, that we didn't have any of the essential cooking items to supplement with, and we couldn't go and get the collect the goods before preparing the food because we had no refrigerator.

NETTO Engelsborgvej

The entire ST-even and ST-odd needed this dinner. The staff of NETTO Engelsborgvej was immediately on with the idea, because they knew how an important costumer the dormitory is. Even the senior manager at the head office knew how important we were to their store.

Next time you are shopping in NETTO, say Hi from ST-even and ST-odd!

Are you insured?

17 out of 52 of the residents of ST did not have a home insurance policy! Was it worth it? To save the insurance away? What were those with insurance given and did it go for those without it? What does an insurance cost anyway?

NybroTidende talked to residents about their assessment of how their company has handled the situation and looked at the deals you can get out there.

home insurance policy

The insurance that covers the contents of your room, terrace and kitchen.

KAB has a private insurance company that covers the building, meaning renovation of walls, floors and ceiling of our individual rooms as well as covering for the for resettlement.

Choose your insurance

IDA

Many of the residents have subscribed for insurance through IDA. In order to get a cheap insurance in IDA you must be a member of the IDA study insurance. It costs 240 kr. Annually. After a quick visit to their website we were faced with a bid of \$ 0. in deductibles and about 600 kr. annually for a home insurance policy. Look for yourself:

<https://tilbud.idaforsikring.dk/tilbud>

4 sub group to LB insurance

The teacher's fire insurance is aimed at those with teaching as their main

occupation. Bauta Forsikring is for nurses and the healthcare sector. Runa Insurance offers insurance to FTF and AC groups. FDM Insurance caters to members of FDM. Most programs have an insurance company more or less adapted to their students' needs. Ask at your university or contact your union to hear what agreements they have.

On most insurance companies' websites you will find pages that calculate what the insurance costs from your personal information.

There are also many guides and sites where you can fill in your information and then contact the insurance companies which can meet your requirements and needs for you personally. It is recommended. We tried and were in two days called by Top Denmark and Nykredit who would make a non-binding offer. The option allows you to start to learn about what's out there.

What they say about their insurance company

Emma, ST-even. Occupational therapist, Metropol. Bauta Forsikring.

"My deductible was 1000 kr. When you think about how much I have been given back including the peace of mind from having someone who took care of it all for me has been invaluable. "

Mads, ST Odd. Production Engineering, DTU. Tryg, through IDA.

"I am very satisfied! My clothes are already

finished "(in 2 weeks).

Thomas, ST-Ulige. DTU. Tjenestemændenes Forsikring.

"I am glad that I have insurance cover, but it is too early to speak about my insurance management. So far they have been good to answer back. I have insurance there because I got a good deal. "

Marie, ST-Right. Construction and Mechanics, DTU. Tryg, through IDA

"At first I thought that maybe no assurance lived up to my expectations because I heard what the others said their insurance had done for them. I called in and heard them about it. They were very helpful and i was subsequently given some of the things others had. So all in all I am really happy to have insurance with Tryg ".

Sofie, ST Odd. Digital Design and Communication. ITU. ALKA

"They have been quick to get my stuff to a cleaner. I got an amount on the day. I got more contact opportunities for them from the start and I can definitely recommend ALKA ".

Accident causes

No, we still do not know what caused the fire. We know that the fire started in a kitchen, most likely by the middle oven. But we have not received any definitive explanation and do not know if we will get it

WITH INSURANCE

Rasmus, ST-odd. DTU. Insurance: Tryg, through IDA.

"I think they have been easy to talk to throughout. When the fire started, the appraiser was quickly on the scene and the way they handled the matter seemed the best possible pace. Injury Service has been a little difficult to work with, but in the conditions that Tryg has influenced, I think they have handled it very well.

In relation to resettlement, we were a somewhat left to ourselves in the beginning and had even found emergency resettlement. We were three who started staying at Postgården, in Lyngby Centrum. The hotel was an emergency solution, since we wanted to stay with the others from the hall when we realized that the renovation work would have to take several months. The solution was, therefore, in dialogue with Tryg, to get mobile homes set up at the Community parking lot like the uninsured, which seems to be a good solution. There is no set amount of compensation when it comes to soot and resettlement, but my impression of Tryg is that they are easy to talk to and we are able to find a good solution. "

WITHOUT INSURANCE

Antonio, ST-Right. DTU & Mattia, ST-Odd, DTU.

It is generally the exchange students that have not had a home insurance policy, here are two of them:

Antonio - *"It is not in our culture to have insurance. So I had not really considered it. I lived on the first floor so it had not made much difference to me in this situation. I even managed to wash my things, all I lost is what I had in the kitchen. I am glad I have so many contacts in Lyngby so that I have had a place to stay until KAB set up the mobile homes".*

Mattia - *"I do not need insurance, I own nothing at all it has as much value as what the insurance would cost. The news of the fire spread quickly. Everyone asked if I was okay and if I needed help. A complete stranger from PR was going on holiday and lent me her room, and the friends gave my "new" clothes ".*

Are you getting insured now?

Antonio - *"yes, i will probably go and take a look on what is out there".*

Mattia - *"I do not think so, if I have to stay in Denmark for a long time, then maybe. It has primarily cost me quite some time! I sat from Tuesday to Sunday and dried all my stuff. It cost me about 200 kr. In tools and I have spent money on washing of clothes but otherwise I have not had any extra expenses. "*

Scarlet: Er når man har lavalamper, er total 80'er, man er klar, man er retro, det er sommer er man bare fucking scarlet.

Just Before I Go

Do you remember the actress behind Monica in "Friends"? Courtney Cox. Yup. She seems to be making films as well! Cox is the director of the movie, even though it isn't her first, I have to admit that I was unaware of it before I read about this film. None the less, the movie fares quite well.

The story revolves around the man Ted Morgan who, after having lived a tough life, is planning to commit suicide. When I'm saying *a tough life*, I mean a really tough life. As a boy, everything was joy and laughter, until his father suddenly dies. The father is all in all to Ted and his great idol! The mother was not able to cope with the situation, and while she went down with the flag, Ted had become the victim of the school bullies. Years of bullying and hardships later, Ted finds his true love. After three years of marriage, he finds his wife in bed with another man, which becomes the last straw to Ted.

Nothing in his life has ever been a success, and failure after failure has brought him completely on the ropes.

This is why Ted is planning his suicide. Before taking his own life, he first has to confront his enemies with how he feels they've treated him. This is the journey that the movie invites us on. The movie presents various sides of Ted's story, and it is clear that Ted develops a lot during the journey.

As it is with most American movies, perhaps especially with this kind of movie, it's relatively easy to predict how events will transpire. Still, I must say that I was left taken away by the movie, because I felt that the movie had succeeded in getting its message through.

Are things always as they seem? Is an idiot in his school years necessarily also an idiot years later? And was there a reason behind it? We live in a world where it's easy to

judge people for what we think they do, but in reality, things are not as simple as we make them when we get angry at a person.

The movie is also brings with it the simple answer, to confront your problems, take action and you will find that things quickly start to make sense.

Yeah, yeah, that was all very deep, probably more than the movie allows. The movie would be best watched during an evening where you just want to relax while having something on the screen, or perhaps a day with a hangover. It is however a good feel-good movie, that doesn't take a lot to follow. 3 out of 5 stars from here.

Jakob S-06
