

NybroTidende

The internal gazette at Nybrogård

VOLUME 39. NO. 2,

March 2012

News from the Residents'

Lars Kaj advises

The new steel table tops and sinks in the common kitchens need to be adjusted. This may involve quite a bit of noise.

The workers started the work Tuesday February 28th. The date of completion is still unknown.

Next Residents' Council Meeting

Monday February 6th 2012

At 19 in the GH-basement

SPRING HAS ARRIVED AT NYBROGÅRD - Though February was also the month that brought us a generous helping of snow, we would only have to wait until the end of the month to observe two-digit temperatures on the thermometer. Although next week promises considerably colder temperatures, dipping below freezing at night, the spring is irrevocably on its way. This picture should serve as proof to that point.

BREWING DAY IN THE D-BASEMENT - In the basement under CD, a sweet scent at times makes its way up to the hallway. This means Andreas is brewing beer. You can read more about the brewing process inside, and why Andreas is so in to it.

PAGES 6-7

COMMUNICATIONS FORUM - The network group has been working on replacing the mail distribution list meddelelse@nybro.dk for a long time, and this has resulted in the new forum, where you can join the groups you want, and just those.

PAGE 8

INFORMATIVE MEETING IN THE BICYCLE WORKSHOP - The bicycle workshop has been through a cleaning-day, and new tools have been purchased, so the workshop can be used by the residents again. In February, an informative meeting was held.

PAGE 12

The complaints committee advises Leaving possessions in common areas is not allowed

Dear residents.

Leaving possessions in common areas and fire access routes is not allowed.

This includes stairways, areas under stairs and hallways (also in front of apartments).

If you need to store something, you need to do it in your own room. According to fire safety regulations, all common areas must be clear.

Because of frost, the general consensus between the residents seems to be that bicycles are allowed inside the dorm in common areas.

Bicycles can be hung on the wall or ceiling in the rooms, and if they need to dry off first, they can be placed upright in the shower area.

The dorm has installed mats by nearly all entrances in order to make the cleaning easier (read: lower rent), but when everyone drags salt and snow in with their

bicycles, the floor rots and renovations are needed more often (read: higher rent!).

If you need to repair your bicycle, we will refer you to the Bicycle Workshop, which is in the basement of the M-block.

All bicycles will be removed from indoor common areas. They can be retrieved by agreement with Lars Kaj.

The complaints committee

Common areas such as hallways must be clear, which means, you are not allowed to leave your bicycles or other

Facts about NybroTidende

- **Editor in chief:** Cecilie Kristiansen (D5)
- **E-mail:** tidende@nybro.dk
- **Issued** once every month, four days before the following residents' council meeting, at the latest.
- **Deadline for contributions:** the 20th of every month
- **Copies in circulation:** around 150
- **NybroTidende's** editorial staff reserves the right to make corrections to contributions, as well as reject contributions which do not seem to offer relevant information for others.

Winter Wonderland at Nybrogård Kollegiet

This winter has been far from as bad as the last, but we did have a few days of snow I February. Here are some pictures of the dorm, covered in a thick layer of white snow. The pictures are from February 5th this year. Though it may be pretty to look at, we hope the winter is over soon, so we can enjoy spring and summer. We have, after all, entered the spring months.

Minutes of the residents' council meeting Wednesday February 6th 2012

At 19 in the GH-basement

Present: Thomas C22, Nina C23, Lasse C21, Jonas D59, Jakob C03, Trine C03, Gabriel C05, Christian M61, Nercis D10, Jakob H02, Simon A26, Maria J34, Nikolaj N16, Claes O52, Lærke N37, Camilla L01, Andreas D52, Cecilie D05, Stig S05, Ask M47, Hilbert P23, Thomas B64, Anna M45, Mikkel J21.

Cancellations: Majbritt S05

Re 1) Jonas D59 is chosen as moderator and English is chosen as the language for the meeting.

Re 2) 12 voting members are present.

Re 3) Minutes from the last residents' council meeting are approved

Re 4) The agenda is approved, although with a comment on item 8E. In the future, it should be made more clear when an item on the agenda involves money.

Re 5) Economy:

NYK's account holds DKK 185,000 and the Network account holds DKK 401,000.

In December, DKK 12,500 has been paid from the roof terrace project and DKK 9,000 from salaries. In January, money has been paid to the bike workshop.

The annual financial report has been sent out as an appendix to the notice – it shows a balance of DKK -54,510.40.

Re 6) Other notices

In the future, all inward correspondence must be received by the secretary, at the latest, 10 days before the meeting, in order for the item to appear on the agenda. Furthermore, items must be written in more detail, so everyone knows what they entail. To ease the secretary's work, the following format should be used for inward correspondence for the agenda: Heading, summary, detailed text, and any applicable appendices.

Re 7) Board meeting

Camilla L01 is chairman of the board. The first meeting is in April, and there has not been any news on the agenda. The decision on the joint complaint is that it was rejected in the rent assessment committee (NOT in the board).

Re 8A) Introduction of the new football coach, as well as future

plans for the football team.

Gabriel C05 is the new coach for the dorm's football team, and Jakob C03 is assistant. A series of initiatives will be seen in the future from the football coach, which will not only benefit the team, but the whole dorm.

As the appendix shows, a competition for best logo will be held, where everyone on the dorm can create a logo for the football team. Everyone can participate, either as a whole kitchen, or as an individual. During the competition, extra tasks will make it necessary to team up with fellow residents around the dorm. The winner will be found on a Friday night in KælderCaféen, where everyone present can vote. A prize will be given to the winner. The football coach suggests a gift certificate of DKK 500 or 1000 for Fona as an example. The appendix for this item was sent too late, and therefore, voting will not be possible during this meeting.

It will be considered again at the next residents' council meeting. Ideas for the formation of the logo competition are welcomed by Gabriel on e-mail: gæte@knord.dk written in English.

Re 8B) KælderCaféen's service lift

DKK 12,000 has previously been granted towards repairing the service lift in KælderCaféen. In the mean time, it has been discovered that the old lift is not worth repairing. A new lift costs around DKK 50,000, but KælderCaféen will use some of their own money as well as the DKK 12,000 granted earlier to buy and install a new service lift. This is approved by the residents' council.

Re 8C) KælderCaféen open for a single, private event on a Sunday afternoon

KælderCaféen seeks approval to open for a single, private event on a Sunday afternoon in April – the final date has not yet been decided. The event is a children's birthday party without alcohol or loud music. This is approved by the residents' council.

Re 8D) The residents' council representative in KælderCaféen

A member of the residents' council is placed in KælderCaféen's management board to observe the board work. At the moment, this is Jonas D59, who is also chairman of the residents' council, and therefore believes

it may be wrong in principle. He is not against continuing in both duties.

It is decided that Jonas D59 can continue as the residents' council representative in KælderCaféen's management board.

Re 8E) Establishing a girls' football team at the dorm

Claes O52 is the new coach for the newly established girls' football team at the dorm. The girls' practice is on the same day as the boys' and it would therefore be easier if the girls had their own equipment. The girls' football team seeks funding of DKK 15,500.

For: 10

Against: 1

Blank: 1

The proposal is approved.

Re 8F) Update on proposal for an energy consumption contest

An energy consumption contest was proposed; where each hallway should consume the least amount of energy per resident (the apartments would participate on behalf of the hallway in which their key could open the kitchens). There are a number of practical problems with making sure it would be fair for everyone. See the appendix sent out with the notice. Ideas are welcome with Nikolaj N16 on e-mail: alpha-studio@live.com. There will also be an article in NybroTidende regarding this.

Re 8G) The Canoe Club seeks funding of DKK 69,000

The Canoe Club seeks funding of DKK 69,000 for purchases of more practical canoes and two faster kayaks, as well as some new equipment. The reasons for these purchases are that two canoes have been discarded, and the canoes and kayaks are often all being used. These canoes are expected to live forever, if people take care of them, which make them a good investment.

For: 9

Against: 3

Blank: 0

The proposal is approved.

Re 8H)

Through the review of representatives and alternates of the residents' council at the end of 2011, a few turned up

Continued on the next page...

...continued from previous page

that had not been heard from in a while. Resident council chairman Jonas D59 has followed up on these people since then: Philip F47 has moved. A new representative is needed to replace Thomas G26. No answer from Kasper 31. Mikkel R21 is no longer alternate, Hilbert P23 takes over. Mathias O05 has left the council and there has not been any contact with Thomas T54 yet.

If a hallway does not show up 2 times within a half year or neglects sending a cancellation, they will be removed from the residents' council.

Re 8I) Solar panels

Mikkel J21 has researched the possibility of installing solar panels on the roof of the dorm to save resources. It is possible to install solar panels equating 6kW per resident. If the dorm can take a loan for the money and in other ways seek funding for this project, it would quickly become economically feasible. Mikkel J21 would like to work on the project, but volunteers are welcome to make sure the project does not come to nothing, since Mikkel will be travelling for a few months during the summer. This project should cover all electrical needs. It is also worthwhile to consider solar heating, since this gives great value for money.

Re 8J) Review of the residents' council's rules of procedure

See <http://www.nybro.dk/wpcontent/uploads/2010/08/beboerregler.pdf> pages 10-13. The rules of procedure for Nybrogård Kollegiet's residents' council are covered here.

It is worth noting §3 part 2, which states that proposals that are to be considered in the residents' council, should be received by the secretary at least 10 days before the meeting is held. If this is not respected, the item is not added to the agenda.

This section also states that the agenda should be sent out at least 8 days before the meeting. Half of all the representatives or alternates should be present for the council to transact business. There should be a 3/4 majority for changing the wording of an item. The agenda should be published in NybroTidende at least 4 days before meeting and if the hallway does not show up 2 times within a half year or neglects sending a cancellation, they will be removed from

the residents' council.

Re 8K) Review of the regulations of the residents' association NYK

See <http://www.nybro.dk/wpcontent/uploads/2010/08/beboerregler.pdf> pages 13-17. The regulations of the residents' association NYK are covered here.

Among other things, it is noted that a general assembly should be held in the week numbers 45-50 with 3 weeks' notice. NybroTidende should publish a notification 8 days before the meeting. Only the treasurer and the chairman have access to NYK's account, and only the network group has access to the network account. The financial report is presented every six months in January and April. The network group is employed by the residents' council. Several contracts need to be drawn up with regards to this. Jonas D59 will take care of it before the next meeting.

Re 8L) Heat loss assessment

At the last board meeting, the board decided to discard the plans for a heat loss assessment of the dorm's buildings. It will now be considered whether the board should change their decision to comply with rental laws and the residents' requests. A heat loss assessment will cost DKK 32,000 and the board is obliged to conduct it if the residents' council requests it. This heat loss assessment would be valid as long as the dorm is running. A heat loss assessment is done to compensate for a room's placement in a building.

This will be discussed at the next board meeting, where everything will be covered. Voting will take place at the next meeting.

Re 8M) Distribution of expenses for the common kitchens

As described in item 8L, the board decided to discard the plans for a heat loss assessment – a decision many would like to be revised. As it is now, there is no documentation of how the residents want 'individually settled utilities' to be performed, since it has never been discussed by the residents.

Mikkel J21 has provided a proposal, which can be read in the appendix.

At the next residents' council meeting, a committee consisting of 2 apartment residents and 2 room residents will be formed, so they can discuss a proposal that can be approved

at a residents' council meeting. If this proposal is approved, it should be noted that the distribution of CopyDan fees will have to be changed also.

Re 8N) Renovation or removal of heaters in bathrooms, kitchens and entry halls

This item is regarding the heaters in the bathroom of large rooms and the apartment bathrooms, kitchens and entry halls. Many of these heaters are either not used or are ineffective compared to the heating bill a resident receives. Mikkel J21 proposes the following: A more suitable heater is installed in the bathroom and heaters in kitchens and entry halls are removed completely. It should be noted that the heater in the entry hall cannot be removed as long as the front doors of apartments are as drafty as they are today.

It will be considered at the operations meeting on Monday 13.02.2012

Re 8O) The dorm needs more volunteers

The music room needs an active resident. An 'active-party' can be held. Thomas C22 will follow up on this. An open house event can possibly be held for clubs and the residents' council.

Re 9) New members and alternates
Hilbert P23 is representative for PR-odd

Gitte P15 is alternate for PR-odd
Jakob C03 is representative for EF-even

Re 10) Other notices

The complaints committee is looking for new members

A cake festival will be held on March 17th, 2012. Everyone should bring a cake. Since the cake committee would like to know how many will participate, they ask that each hallway send an e-mail to Maria J34 (e-mail: maria.willemoes.r@gmail.com) telling how many they will be by 13.02.2012.

Re 11) Next residents' council meeting is Tuesday, March 6th, 2012 at 19:00 in the GH-basement.

Items for the agenda should be received by the secretary at least 10 days before the meeting.

1 x chicken burger

DKK 35

4 x chicken burgers

DKK 100

The chicken burger is a favorite of mine, so in order to give you the option of tasting it, 1 chicken burger now costs DKK 35. There is also a group deal – 4 chicken burgers for DKK 100.

Brewing day in the D-basement

The aromatic scent of cocoa and grains hit me as I open the door to the D-basement a Saturday afternoon in February. I have been invited by the beer enthusiast Andreas, O43 to learn about the process of brewing a good beer. On the menu today: A dark, strong Belgian ale.

Andreas has already started the preparations, when I announce my arrival. But it does take time to brew your own beer, he tells. A batch like the one Andreas can produce in the brewery at Nybrogård Kollegiet will contain 25 liters of finished beer, and will take around 5 hours to brew. After brewing, the beer will ferment three times, of which the first typically takes a week. The container is then exchanged and the second fermentation extends the process another 10 days or so. Then the beer will be bottle-fermented to produce carbon dioxide, and that typically lasts 10-15 days, but after that, the beer will be ready to drink. Of course the beer can easily be stored for longer periods, Andreas adds, the taste will simply be allowed to develop. This can be a good idea if the beer tastes a bit weird after the three fermentations, since it may be a sign of an infection during the fermentation. It may subside with further storage.

Malt in many flavors

On the table is a big pot of water which Andreas is heating. The water should be between 68 and 72 degrees before the ingredients are added, he explains. Besides a lot of water, to brew beer, you will also need yeast,

hops and malt (wheat, barley or oat). Andreas has purchased various bags of malt, which need to be mixed in exactly the right ratios to produce the beer he wants. Some of the bags have a faint scent of grains, while others have a more pronounced aroma of coffee or cocoa. He tells that it is the way the malt is roasted, that gives the beer its characteristic taste. The more it is roasted, the stronger the taste – and the color – will be. To my question about which malt type he prefers, Andreas answers that he often mixes the grains to obtain a more complex beer. He will be doing the same with the Belgian ale today.

Beer by recipe

When the water is warm, Andreas reads the temperature and pours some cold water in to regulate the water to the precise temperature dictated by the recipe. He found the recipe for the Belgian ale on the website www.haandbryg.dk, where a long list of beer recipes have been rated, so you can be sure that the beer you choose has actually been tried by other beer enthusiasts. According to Andreas, it is very difficult to experiment with your own beer, so he sticks to the recipes and then adds a little of this or removes a little of that, if he wants. Today, he is also regulating the proportions a little, so the beer becomes a bit more à la Andreas.

He measures the different malt types to the gram, and pours it all into the sieve he had placed in the pot of water. A sweet aroma of the Danish dish 'øllebød' sends the mind back to

The beer Andreas is brewing, will be a strong one. Already after a few minutes, the liquid has a nice, dark color.

chilly mornings in grade school, while he stirs the thick, mealy substance. Meanwhile, he drains some of the water from the bottom of the pot, and here are the first signs of the beer it will once become.

The mashing is started

The first step in brewing is called 'mashing' and indicates the process where the malt is heated. Andreas explains how sugar chains are formed, which the yeast 'eats' and converts to alcohol in the subsequent fermentation process, and that the sugar chains have exactly the right length at 65 degrees.

Continued on the next page...

Ingredients for the beer

The water is heated

Ingredients are measured

When the water has the right temperature, the various malt types are added

...continued from previous page

If the substance is heated to above 72 degrees, the chains become too long, and a sweetener is produced instead of alcohol. All in all, I quickly get the impression that Andreas knows quite a lot about brewing beer. And it is necessary, he says, because a fundamental understanding of the craft is needed to start brewing yourself. For anyone who would like to know more about brewing, Andreas recommends the book *Ølbrygning for begyndere* by Klaus Rydahl. It is a must read, if you want to start yourself, he says.

At the moment, not many use the facilities at the dorm. Actually, only Andreas is active, and he would like to see other beer enthusiasts join. He does make a point of stating that beer brewing is an investment. It is not a cheap alternative to Tuborg, so if you want to become a brewer just to have a stock of cheap beer for the next Roskilde Festival, you will be thoroughly disappointed. However, it is possible to make great quality beer if you find the right recipe. For DKK 300-600, depending on the choice of ingredients, you can produce between 22 and 25 liters of specialty beer, and that will be of benefit to both yourself and your friends. Andreas tells that his friends have been happy to taste his beer whenever he has offered it to them. They have even gotten drunk in it, so it must be drinkable, he adds, smiling.

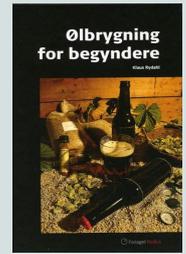

Boiling the wort with hops

When the mashing is finished after about an hour and a half, the mash (the thick, mealy substance) is strained, and the wort (sugar water) remains. After this, the wort is boiled together with the hops. With the

Ølbrygning for begyndere

by Klaus Rydahl

- Can be **loaned** at the library. Copenhagen's libraries currently have 6 copies, and no one waiting in line.
- Can be **bought** from various websites, among them www.brygladen.dk for DKK 149,95.
- Can be **read** (the first 12 pages) at <http://www.forlagetradius.dk/log/userfiles/pdf/>

equipment found in the D-basement, it may be difficult to bring the big pot of liquid to a boil, but Andreas has found a solution to this. He uses a sort of insulation of the pot, so it can retain the heat, and in this way, it can – if only just – be accomplished.

Andreas chooses to add the hops a little at a time, because it makes for a more aromatic taste, which suits him better. If you add all the hops in the beginning, you will create a more bitter beer. But it is definitely possible to do it both ways, he tells, and there are many beer enthusiasts who swear by the bitter ales such as India Pale Ale.

The fermentation

The third step in the brewing process is to cool the liquid quickly, and the fourth is to add yeast. Andreas tells that, generally there are two types of beer: top-fermented and bottom-fermented. The top-fermented is the ale, where the fermentation takes place in the upper layer of the beer, while the bottom-fermented, where the fermentation takes place in the bottom, is called a pilsner. The pilsner is the hardest to produce, because it is incredibly important to keep a steady temperature, which means using refrigerators and other

temperature-regulating devices.

Mentor-tutor arrangement

The actual fermentation process takes place in the basement beneath CD and Andreas already has a fermentation going from a previous brew. In total, he has finished four brews, and the results, according to himself, are becoming better and better.

Although Andreas would not consider himself an expert, he would gladly offer his help to those from the dorm who would like to start a brew themselves. That way, he could also learn and gain experience with brewing beer. Tasting each other's brews could also help determine what suits your own personal favorite brew.

If your desire to try beer brewing has been kindled, you can contact Andreas by e-mail at andreas@ramboel.dk. He can then give you an introduction to the brewery. It is a prerequisite that you have read *Ølbrygning for begyndere* or a similar book, so you know a little about the process before you start.

It just fit in there

Andreas stirs the thick, mealy substance and drains some water, which he pours on top.

The temperature is read again

When the brew is ready, it is bottled

Tropical Party at AB-even

Some of us at AB-even miss the summer and sometimes find ourselves dreaming about the tropics. We would like to make the dream come true on April 14th, 2012, where we will be hosting a tropical party for the whole dorm.

We heard that there was once a block party for each block, but at the moment, only ST is keeping true with a yearly party. We at AB would like to follow suit.

We are completely engulfed in the planning, but for now, we would just like to ask you to mark your calendars – we are looking forward to one &% of a party!

AB-even

Translated by Nikolaj, N16

New communications forum at nybro.dk

For a long time, the network group has considered the e-mail group meddelelse@nybro.dk problematic, since it was used for many different purposes that were not always equally relevant for everyone at the dorm. At the same time, the e-mail group has provided a means for fast communication between all the dorm's residents.

In order to maintain communication between the dorm's residents, but to avoid spamming, the network group has created a forum for the dorm, which – besides ridding us of meddelelse@nybro.dk – can provide a new means of communication for the

dorm and its groups.

The forum is divided into different categories so each user has access to the sub forums relevant to the individual.

We have tried to divide the forum by those topics, the meddelelse@nybro.dk was formerly used for. We have also added a few forums, which we believe might be of use. This resulted in the following list of forums:

- Chat
- Buy and sell
- Sports and games

- NybroFestival
- KælderCaféen
- Internet
- TV and radio
- Telephone
- Residents' council
- Minutes of residents' council meetings

Besides these, there are also closed forums for each club and each hallway. The advantage of communicating in groups in the forum is that, in contrast to e.g. facebook, it does not require a profile for new members to gain access. The groups are controlled by the internal mail distribution lists, which at the moment are kept up to date by the chairman of each group.

Besides closed club forums, each hallway also has their own forum, where discussions regarding the kitchen money, beer fridge and such can take place. It will also be possible to upload a copy of the kitchen finances and minutes of kitchen meetings here.

The forum is accessible directly at www.nybro.dk/forum or via a link in the upper right of nybro.dk and you just need to use your internet user name and password to log in.

See you in the forums!

The network group

KælderCaféen is temporarily closed

Dear residents.

Through many years, KælderCaféen has experienced problems with water. We will now stop the water and repair the damage that has been done. Unfortunately, this means we will need to close KælderCaféen for a period of around two months.

We promise to return stronger

than ever, with a huge party in an improved KælderCaféen. Our opening day will of course be announced as soon as we know when the project is finished.

We look forward to seeing you again!

KælderCaféen's management board and manager

Also back in August 2010, KælderCaféen was filled with around 300 liters of water after heavy rains. Since then, KælderCaféen has experienced similar problems many times, but now something will be done about it.

Recipe for cake festival

Ingredients:

- 1 cake committee
- LM + NO at Nybrogård Kollegiet
- Cake enthusiasts
- 1 cake per participant (as much as you would eat yourself)
- 1 paper plate per person
- 1 fork per person
- Indispensable measures of good spirits
- 1 facebook event: "nybrogårds kagefestival"

Accompanied by:

Own drinks.

Rules:

Your cake must be "checked in" at the cake festival. The cake will be subject to approval.

The cake must be home made or bought at a confectionary. Store-bought cakes will not be approved.

You will not be allowed in the cake festival without a cake.

In the weeks preceeding:

We will warm up with posts from the cake committee regarding contests on the day and other useful information such as "Oh no, which is a cake, I can easily bake"-advice or "This is how you can easily bake a cake without consuming too much energy". So keep an eye on that facebook event: "nybrogårds kagefestival"!

On the day:

The cake committee is slowly heated and the cake enthusiasts are added. Every participant brings their own cake and shares with the others. Upon arrival at the cake festival, the cake is checked in and a paper plate is issued. Friends are added to taste. At 17:00, prizes within different categories will be awarded by a jury.

Free your imagination, invite your friends and join in a pleasant day in the name of the cake!

The cake committee

NYBROGÅRDS KAGEFESTIVAL

Notice of Residents' council meeting Tuesday March 6th 2012

At 19.00 in GH – basement

Agenda:

- 1) Choice of moderator and language
- 2) Number of voting members
- 3) Approval of minutes from last residents' council meeting
- 4) Approval of agenda
- 5) Economy
- 6) Other messages
- 7) If applicable, review of the minutes of the last board meeting or agenda for the next
- 8) Incoming topics

a. Logo competition

As written in the minutes of the last residents' council meeting FC Nybro is making a competition of who can make the best logo (see appendix). Therefore FC Nybro is applying for funds to start the logo competition, for an award to the winner (or winners), but we are unsure as to what people think is reasonable. We imagine a varying price depending on whether it is a person or a kitchen that is participating. A vote will determine which of the following three offers that is most fair according to the residents' council (person/kit-chen):

1. DKK 500/1000
2. DKK 750/1500
3. DKK 1000/2000

This amount will not be paid in cash, but will instead be spent on a gift certificate from gavekortet.dk, which the winner chooses. Proposed by Jakob C03 and Gabriel C05.

b. FC Nybro men's team is applying for DKK 4090.

FC Nybro men's team is applying for DKK 4090 for payments for the coming season's expenses. See appendix for details. All items are purchased from Unisport.dk. Proposed by Jakob C03 and Gabriel C05.

c. Review of the financial balance of KælderCaféen. Proposed by Samuel D46.

d. New vote about TV-channels in the dorm.

We are looking for someone who would like to investigate what options we at the dorm have for getting other channels. Proposed by Thomas C22.

e. The Cake committee is applying for getting a club under Nybrogårdkolegiet (dorm) with the name

”Nybrogård udvalg”. See appendix. Proposed by Asger H61.

f. The Cake committee is applying for DKK 1000 for hosting the Cake festival on March 17th 2012. See appendix. Proposed by Asger H61.

g. Electing an account manager for the Network group.

The Network group recommends Mikkel Ørum Wahlgreen to gain power of attorney for the Network group account. Proposed by the Network group.

h. Request for a treasurer at K-Net

K-Net has held their annual general assembly and constituent board meeting, but since a treasurer was not found, an extraordinary general assembly has been called for March 20th, 2012 at 17:30 at DTU. If a new treasurer can not be found, K-Net will be absolved, and their services will terminate the same day. See appendix. Proposed by Mikkel, representative at K-Net.

i. K-Net is planning to raise the internet fee to DKK 16,50 effective from 01.01.2013.

The DKK 2,00 rise will be used for K-Net's coming operational expenses,

since they expect to expand so far as to own the equipment all the way out to the users, except for the fibre connections between the dorms. See appendix. Proposed by Mikkel, representative at K-Net.

j. Establishing a committee which will bring suggestions to changes in the statutes and rules of procedure.

A committee of 3-4 people will be established. They will suggest a list of changes to the statutes and rules of procedure. The suggestions must be ready before the summer vacation, so they can be processed by the residents' council before the voting takes place in November. Proposed by Jonas D59.

9) If applicable, election of new members and alternates, as well as information regarding members that are leaving the residents' council.

10) Other notices

11) Date for next meeting

Cancellations must be sent to Nina, C23, nina-sig@hotmail.com March 5th, at the latest.

*Translated by Edward, O50
and Nikolaj, N16*

Appendix 8a – Logo competition

The football team's new coach is Gabriel Tecuceanu (C-5) and is from Romania. He has lived at the dorm for a few years and has played on the football team since last spring. Now, he is at the head of the team, and as a help with various external matters, I will stay on as assistant. This mainly entails the Danish communication at meetings and outside parties (referees, tournament management and so on).

Gabriel has several big plans, which do not only involve the football team, but all of the dorm's residents. He appreciates a social life at the dorm, and that is something we would like to work towards, also outside the football team. Since this is the main focus from his side, the topic of the following appendix is also devoted to his first project as the new football coach.

Logo competition:

It is very important that you read and discuss the following with your representatives, since money is involved in the proposal. It is not clear from the notice, due to Gabriel not specifying clearly enough on the matter.

We wish to conduct a logo competition where everyone at the dorm can participate. The logo will be given to FC Nybro. In order that everyone can participate, it will be possible to send logos either as an individual or as a whole kitchen. As an individual person

or as a kitchen, only one entry will be allowed. You will still be allowed to send a personal entry, even if your kitchen is sending an entry without you.

The plan is to make the competition last a month, and during the competition, extra tasks will make it necessary to team up with fellow residents around the dorm.

The winner will be found on a Friday night in KælderCaféen, where everyone present can vote on the logo they think is the best. The precise details will be decided later.

On the subject of the prize is where we are most in need of your opinion. We are regarding this as the first in a series of initiatives that hopefully can create more social life at the dorm. It is important to us that we can offer a prize that is actually worth winning. We had thought about a gift certificate to e.g. Fona, where the amount would be dependent on whether you were participating as an individual or as a kitchen. Our suggestions were respectively DKK 500 and DKK 1000.

It would also be possible to present the prize as cash, so the winner could freely use the money. This is just our suggestion, and we would really like to hear what you feel is reasonable, or what you think would be an attractive prize to many.

Jakob, C3

Appendix 8b - FC Nybro Season 2011

Tournament:

Administration for Kollegiefodbold.dk	kr. 120,00
Servermaintainance, Kollegiefodbold.dk	kr. 130,00
5 games in tournament	kr. 2.100,00
1-4 games in the cup - 300 kr each	

Football equipment:

2 x Footballsocks	kr. 120,00
4 x footballs - 300 kr each	kr. 1.200,00
2 x Select shin guards	kr. 200,00
whistle + chain	kr. 60,00
5 x icebags	kr. 95,00
Sportstape	kr. 15,00
Possible price for delivery	kr. 50,00

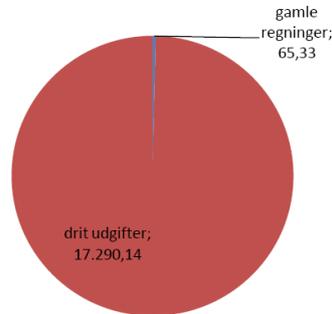

All: kr. 4.090,00

Also, all players pay 50,- for social arrangements and emergency-repairs

Appendix 8c - Financial report from KælderCaféen

Annual report:

Income:	Net	DKK 145,650.40
Expenses:	Net	DKK 133,991.89
Balance:		DKK 11,658.51
End capital:		DKK 33,560.03

Appendix 8h-Treasurer needed at K-Net

Proposed by Mikkel, representative at K-Net.

Summary

K-Net has held their annual general assembly and constituent board meeting, but since a treasurer was not found, an extraordinary general assembly has been called for March 20th, 2012 at 17:30 at DTU.

If a new treasurer can not be found, K-Net will be absolved, and their services will terminate the same day.

Details:

Nybrogård has two representatives at the moment (Mikkel W and Allan Boll, alternate). Mikkel will be leaving in May 2012 and Allan can not say how long he will be staying since he is in the middle of his Master project at DTU, and expects to finish his education in the near future.

Mikkel has previously acted as treasurer at K-Net in 2010 and 2011, but will be leaving in 2012 to stay abroad during the winter of 2012-2013.

Appendix 8i - internet fee increase from K-Net

Proposed by Mikkel, representative at K-Net.

Summary

K-Net is planning to raise the internet fee to DKK 16,50 effective from 01.01.2013. The DKK 2,00 rise will be used for K-Net's coming operational expenses, since they expect to expand so far as to own the equipment all the way out to the users, except for the fiber connections between the dorms.

Details:

It is not currently possible for K-Net to tell whether there will be more increases caused by raised expenses to subcontractors, but if there are, they will be added to the warned increase. (as in 2011)

K-Net is planning to raise expenses towards new purchases and later allocations to the newly purchased equipment, so they slowly acquire more of the networking equipment at each dorm. At first, this will only include the hardware, and no cables or fibers.

This is done to raise the standard at all the dorms and to ensure a better sharing of knowledge between the dorms. In the end, K-Net will be able to operate more and more like a real ISP and ensure a better service for their users.

The individual network groups at each dorm will not be closed down, but will become a part of K-Net's operations. They will be able to support all of K-Net with the experience each individual has to offer, as well as being present at each dorm and servicing their users locally.

If this proposal is voted against at a residents' meeting at a dorm, K-Net has two options:

Close the connection to the dorm in question or reject the proposal. The first option will only be considered if a minimum of K-Nets 11 members reject the proposal. The second option will be considered if a majority of the members reject the proposal. 'Members' refer to the member dorms: POP, Ostefeld, Trørød, Viggo Jarls, AKK, AKA, Kampsax, VKR, NYK, WDK and PBK.

Appendix 8e and 8f - Cake festival

We are a group of eight people who have been planning a cake festival for almost a month.

The festival will be held at the LM and NO blocks on the 17 of march. The general concept is that all participants will turn up with cake and eat as much cake as they can. It will be a day where everyone can try out their own and others baking skills.

To create further excitement we have planned a number of prizes to be awarded for the best cake in different categories.

As mentioned we have been planning this event for a while, and our vision is that a cake festival will be held twice a year. One in the spring and one in the fall.

In order to achieve this vision we are asking two things of the resident council.

1. To acknowledge us as an official committee dubbed "Nybrokage udvalg"
2. To fund the festival held march 17 with DKK 1000.

We have already set a budget for the festival (attached) based on the participation of 150 residents and guests. We estimate that 150 is the upper limit for the amount of participants. The budget is set for 762,44 dkr but we ask for 1000 to cover unaccounted expenses, since this will be the first time the festival is held. It should be noted that most left over materials could be used for the fall instalment.

We hope that you will meet our request in the name of cake.

Best the cake group:

Claes G36, Asger H61, Maria J34, Maria O64, Esbern M50, Kenneth D7, Ann-Louise N36

Informative meeting in the bicycle workshop

During the fall, chairman Jesper C38 and deputy chairman Andreas D52 started cleaning up in the bicycle workshop, which had been practically useless as a workshop for a long time. After many hours of hard work, scrapping of almost 25 bicycles and thorough purchases of new tools, the bicycle workshop was once again ready to be used. On February 21st, the two pioneers held an informative meeting for anyone interested.

It is a little past seven when the first resident enter the door to the bicycle workshop in the LM-basement, and within the next hour, 5-6 more show up. Most are new members, who want to get an idea of the possibilities available in the workshop, while others ask specific questions regarding their bicycles' conditions. Jesper and Andreas explain about the newly purchased equipment, the general rules for using the workshop and helpful advice on how to patch holes and tighten the chain.

"We have a great interest in bicycles and like to help where we can," Jesper tells, and continues with a smile. "We won't patch the hole, but you are always welcome to ask us for advice."

Jesper and Andreas both work at Jupiter Cykler by Lyngby station, and have plenty of experience and knowledge of repairing bicycles. It is important to them that the dorm has a respectable bicycle workshop – because there is a lot of money to be saved by repairing the simplest things yourself.

"Before we started the cleaning, the workshop was not worth using.

Jesper and Andreas will gladly give advice if you need to repair your bicycle.

Now, we have bought a range of good tools, so it is possible to gain something again through being a member," Jesper explains.

Since the tools were expensive, Jesper and Andreas would like to make sure that they are used correctly – and that they do not disappear. They check the tools weekly, and if anything is missing, they check the record of who has used the workshop.

The newly purchased tools

"If you notice tools missing, you are welcome to send an e-mail to one of us immediately," Jesper says.

At the moment, the bicycle workshop has 40-50 members and Jesper

hopes that even more will join in the time to come. He encourages new members to write an e-mail to him at jesper.madsen87@gmail.com if they would like an introduction to the workshop, the use of certain tools, or if they have a specific problem with their bicycle.

Registration for the bicycle workshop is handled by Lars Kaj.

FC Nybro chicks

The dorm's newly established girls' football team is growing with lightning quick speed, and there are now 18 members.

Though the season has not yet started, the team has already started practice. So far, the girls are practicing with Bagsværd's girls' team at Bagsværd Stadium Mondays at 19:00 on artificial turf and Wednesdays at 19:45 indoors, also on artificial turf. All new girls are very welcome to join in the fun, either via facebook or by e-mail to Maria at fututte@hotmail.com or Claes at claes.scherwin@sol.dk.

The training level ranges from beginner to practiced, so everyone can keep up. The match schedule will soon be announced, and until then, you can check the facebook group 'F.C. Nybro chicks'.

Got something on your mind?

NybroTidende is Nybrogård Kollegiet's informative forum. Besides the standard announcements such as the notices of agenda for the upcoming residents' council meeting, as well as the minutes of the meetings, all residents have the opportunity – free of charge – to contribute an article for publication in the newspaper. The contribution must contain room number and/or a designation of the relevant authority (secretariat/subletting/bikeworkshop, etc.). The article must have a certain level of relevance to the dorm. Articles can be sent by e-mail to tidende@nybro.dk, with any applicable images attached. NybroTidende is published at the end of every month. Articles for NybroTidende should therefore be in the editor's possession – at the latest – on the 20th of the preceding month.

SEE YOU
NEXT MONTH

Seasonal recipes - March 2012

The days are getting brighter and longer. The winter's vegetables have soon disappeared and we can look forward to the spring's new, tender buds. Until they have developed, we can supplement our diet with "the green condiment".

This month, use:

Leeks

Leeks are often overlooked, and by many only used to add flavor to soups and stews. In reality, leeks are an extraordinarily delicious vegetable with many uses. If you have leeks in the house, you will always have a meal to make.

There are an assortment of types and sizes. True for all of them, is that all parts of the leek can be used – the white "shaft", as well as the

green leaves. Leeks satisfy hunger well and provide vitamin C and fiber to your diet. Besides soups and stews, it can be browned or mixed with minced meat or salads.

Parsley

Parsley is the most widely used herb and is very significant to cooking. There are two types of garden parsley: The smooth-leaved, which is the easiest to clean, and the curly-leaved, which has the most intense taste. Both stalks and leaves contain essential oils, which give the parsley its characteristic aroma and taste. Parsley is used freshly chopped in cold sauces, in dishes containing fish, vegetables, minced meat and so on, or just as "the green condiment" over potatoes or as a colorful addition to a slightly pale dish. The daily green condiment provides a

supplement of vitamins A and C, as well as the mineral iron.

Flatfish

Flounder, plaice, dab, lemon sole and dover sole are all saltwater fish, which can be purchased most of the year. They are sold either whole or as fillets. Flatfish have a lean, fine meat, which is high in protein and contains the minerals sodium and potassium.

Flatfish is a light and healthy food, which can be varied according to the time of year, your mood and wallet size. Flatfish does not need much heating. It can be fried or steamed for a few minutes.

Check the website (in Danish) for March recipes if you are hungry for more.
